

Village of Sussex Corner
Policy # 2011 – 03
No Smoking

Background:

Village Council is committed to providing a healthy work environment for Council, Staff, and others that serve the municipality. Council also recognizes the fact that facilities and vehicles are shared work areas and could be used by a variety of people and that some of these individuals may have health issues that could be negatively impacted by air quality. As a result, Council hereby recognizes the need to establish a policy to improve air quality in confined spaces including Village buildings and vehicles.

Policy Statement(s):

The Council of the Village of Sussex Corner hereby declares that the confines of any and all Village buildings and vehicles shall be smoke free.
